

PharmaEssentia Corporation

Environmental Policy

Version 1.0

Jul 26, 2024

PharmaEssentia is committed to reduce nature resource consumption and production of waste generating activities related to environmental impacts and performance. We have aligned our consensus and commitments to take the following actions as our key priorities:

1. Establishing an environmental management system(ISO 14001)
2. Implementing environmental policies and goals, and continuously improving environmental performance.
3. Implementing environmental protection and energy education for all employees to enhance environmental awareness.
4. Complying with energy and environmental regulations.
5. Persistently saving energy and lowering environmental impact to achieve the goal of a sustainable environment.
